

UID EX 10

AIM:

The aim is to create data visualizations, such as pie charts and bar graphs, for an inventory management system using JavaScript.

PROCEDURE:

Step 1:

Set Up Your HTML File

```
<!DOCTYPE html>

<html>

<!DOCTYPE html>

<html lang="en">

<head>

<meta charset="UTF-8">

<title>Store Inventory Dashboard</title>

<script src="https://cdn.jsdelivr.net/npm/chart.js"></script>

<style>

body {

    font-family: Arial;

    text-align: center;

    margin: 40px;

}

canvas {

    margin: 20px;

}

</style>

</head>

<body>
```

```

<h2>Store Inventory Dashboard</h2>

<canvas id="pieChart" width="300" height="300"></canvas>

<canvas id="barChart" width="300" height="300"></canvas>

<script src="script.js"></script>

</body>

</html>

```

Step 2:

Create the JavaScript File for Charts Next, create a JavaScript file (script.js) to handle the data visualization logic.

```

// New Inventory Data
const dataSet = {
  labels: ['Mobiles', 'Laptops', 'Accessories', 'Furniture',
'Groceries'],
  datasets: [{
    label: 'Stock Count',
    data: [120, 90, 150, 60, 200],
    backgroundColor: [
      'red',
      'blue',
      'green',
      'orange',
      'purple'
    ]
  }]
};

// Pie Chart
const pie = document.getElementById('pieChart').getContext('2d');
new Chart(pie, {
  type: 'pie',

```

```

        data: dataSet,
        options: {
            responsive: true,
            plugins: {
                title: {
                    display: true,
                    text: 'Stock Distribution'
                }
            }
        }
    });

// Bar Chart
const bar = document.getElementById('barChart').getContext('2d');
new Chart(bar, {
    type: 'bar',
    data: dataSet,
    options: {
        responsive: true,
        plugins: {
            title: {
                display: true,
                text: 'Stock Count by Category'
            }
        },
        scales: {
            y: {
                beginAtZero: true
            }
        }
    }
});

```

OUTPUT:

Store Inventory Dashboard

Stock Distribution

Mobiles Laptops Accessories Furniture Groceries
